

## **Tenure-Track Faculty Position in Chemical Engineering**

School of Chemical, Biological, & Environmental Engineering Oregon State University

The School of Chemical, Biological and Environmental Engineering (CBEE) at Oregon State University seeks to fill a 9.0 month, tenure-track position in chemical process design and engineering, beginning September 16, 2014. This position requires a B.S. degree in Chemical Engineering, a Ph.D. degree in Chemical Engineering or closelyrelated field, and professional experience in process design. The successful candidate is expected to develop and teach courses in capstone chemical process design at the undergraduate level, and develop a research program that complements the existing strengths of the School. At least two years of industry experience in chemical process design and engineering, and professional licensure, or the ability to become licensed as a professional engineer, are also highly desired. The rank is at the assistant or associate professor level, depending upon the qualifications of the successful candidate. To review the posting and apply, please go to <a href="http://oregonstate.edu/jobs">http://oregonstate.edu/jobs</a> and search for posting #0011404. To be assured full consideration, applications should be received by December 31, 2013; however, the position will remain open until filled. Oregon State University is an affirmative action/equal opportunity employer. As an institution of higher education and as a community of scholars, we are committed to the elimination of discrimination and the provision of equal opportunity in education and employment. An important part of this effort is to encourage qualified women, persons of color, persons with disabilities, and veterans to apply.
