

# THE ENERGY IS BUILDING

As the 18th largest engineering program in the nation, LSU's College of Engineering has successfully completed a \$110 million building campaign to support our enrollment growth. That growth translates to the hiring of 50 new faculty members in the next five years.

## THE CAIN DEPARTMENT OF CHEMICAL ENGINEERING INVITES APPLICATIONS FOR THE FOLLOWING POSITIONS:

### Tenure-Track Faculty

We invite applications for a position at the Assistant Professor level in the research area of Energy. The position provides the opportunity to join a department with a long-standing commitment to excelling in energy research, whether related to traditional fuels, renewable sources, or alternative technologies. Salary will be commensurate with experience. A doctoral degree in chemical engineering (or closely related field) from a recognized institution, and a proven record of academic accomplishment are required.

### Tenure-Track Faculty

We invite applications for a position at the Assistant Professor level in the research area of Environment. The position provides the opportunity to perform research on today's environmental challenges—in the context of a department with a strong record of impact-full environmental research in areas such as atmospheric chemical processes and pollutant transport in aqueous systems. Salary will be commensurate with experience. A doctoral degree in chemical engineering (or closely related field) from a recognized institution, and a proven record of academic accomplishment are required.
