

CHE Faculty Search Ad 8-4-18

The Chemical Engineering Program at the Florida Institute of Technology invites applications for a new faculty position at the Assistant or Associate Professor level, to begin in the Spring 2019 or Fall 2019 semester. Qualified candidates must possess an earned Ph.D. in Chemical Engineering or a closely related engineering field, a B.S. in Chemical Engineering, a demonstrated commitment to teaching excellence, and an outstanding record of research accomplishments. Applications will be accepted in all areas of Chemical Engineering.

The Chemical Engineering Program is now part of the newly formed Department of Biomedical and Chemical Engineering and Sciences, designed to enhance research and educational synergy and collaborative opportunities for the faculty in the Chemical Engineering, Biomedical Engineering, Chemistry, and Biological Sciences Programs.

The successful candidate will be an individual with professional ethics, strong interpersonal skills, and excellent verbal and written communication skills, expected to work collaboratively with colleagues both within and outside the department to develop a strong externally funded research program, successfully teach courses at both the undergraduate and graduate level, and provide quality service to the department, the university and the Chemical Engineering profession. Candidates at the rank of Associate Professor should have an exemplary record of research and educational activities, as well as a strong funding history.

Applications should be submitted via email to CHE_Faculty_Search@fit.edu and must include: a cover letter with a statement of the candidate's research plan and teaching philosophy; a current curriculum vitae outlining research and teaching experience and accomplishments; copies of up to three relevant publications; an itemized list of estimated start-up costs specifically listing any required equipment; and names and contact information of at least four professional references. Questions should be addressed to Prof. Jon Whitlow, Search Committee Chair (whitlow@fit.edu). Consideration of applicants will begin on Oct. 15, 2018, and continue until the position is filled.

Florida Tech (www.fit.edu) is an independent technological university, ranked as a Tier 1 National University by U.S. News and World Report and named among the Nation's Top Technological Institutions in the Fiske Guide to Colleges. Times Higher Education ranked Florida Tech in 2016 as one of the Top 20 Small Universities in the World and #1 in the Eastern United States. The university is located on the Atlantic Coast of Florida, in Melbourne, Brevard County, which is one of the Top 10 counties in the U.S. for high-tech engineering and industrial activity, and is in close proximity to the NASA Kennedy Space Center. The Chemical Engineering Program (www.coe.fit.edu/chemical) currently has 6 full-time faculty members, 110 undergraduate students, and 15 graduate students. The program offers B.S., M.S., and Ph.D. degrees in Chemical Engineering, and its faculty are committed to excellence in teaching and furthering knowledge through basic and applied research.

Florida Tech is an Affirmative Action/Equal Opportunity Employer committed to excellence through diversity. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, or protected veteran status and will not be discriminated against on the basis of disability.
