

Faculty Position
School of Chemical Engineering
Oklahoma State University

The School of Chemical Engineering seeks nominations and applications for several tenure-track faculty positions anticipated for both expansion and retirement. Candidates shall have an earned doctorate in Chemical Engineering or closely related area and display a strong interest in both undergraduate and graduate education. The applicant will build a sustainable research program in an area that augments the OSU research portfolio and has strong potential to attract extramural funding. Industrial experience in Chemical Engineering is considered an asset.

Our thirteen faculty members instruct 300 undergraduates with an emphasis on both contemporary industrial practice and on scientific fundamentals. Our students have earned numerous national recognitions (Plant Design Contest, Chem-Car Contest, FE Exam, Scholarships, Outstanding Student Chapter, paper presentations, and others), and are well-prepared for both careers in industry and graduate education. Currently, 50 graduate students are investigating a broad range of topics in our comprehensive MS and PhD program. Strengths in graduate education and research include biomedical engineering, process engineering (design, modeling, simulation, optimization, and control), thermodynamics and molecular design, materials, and separations. The School enjoys strong support from alumni, friends, and industry; providing seven endowed chairs and professorships, faculty development endowments, and numerous research and educational partnerships. For more information about the school and its successes, please visit <http://www.cheng.okstate.edu>.

Applicants should submit electronically (i) a curriculum vita, (ii) a one-page statement of teaching interests and goals, (iii) a one-page statement of research interests and goals, (iv) a one-page cover letter, and (v) contact information of five references. Screening of applicants will begin as applications arrive and continue until the positions are filled, contingent on available funding. Send applications or nominations to **ChEFacultySearch@okstate.edu**
