

University of Michigan Department of Chemical Engineering

The Department of Chemical Engineering is seeking highly qualified applicants for tenured or tenure-track positions at all levels. Applicants should have a PhD in chemical engineering or a related field, a track record of outstanding research, and a commitment to excellence in education and mentoring. All research areas will be considered with a special interest in the areas of energy, the environment, and sustainability.

Ann Arbor is among the most attractive cities in the country, offering many cultural, artistic, musical, recreational and educational activities. The University of Michigan consistently ranks as one of the premiere public universities with top-rated Engineering, Medical, Law and Business programs, and is responsive to the needs of dual career families. The College of Engineering is dedicated to the goal of building a culturally diverse and pluralistic faculty committed to teaching and working in a multicultural environment.
