The Department of Chemical Engineering at the University of New Hampshire (<http://www.unh.edu/chemical-engineering/>) is accepting applications for a tenure track faculty position at the Assistant Professor apply. The anticipated start date for this position is Fall 2016. This search represents a continued commitment to strengthen and grow Chemical Engineering at the University. The department offers Bachelor of Science degrees in Chemical Engineering and Bioengineering with a current enrollment of 230 students. At the graduate level, 20 students are enrolled in the Doctor of Philosophy, Master of Science, and Master of Engineering graduate programs in Chemical Engineering. Our vibrant and dedicated faculty conduct research in the areas of Biosensors, Biomaterials, Biomedical Engineering, Synthetic Biology, Molecular Simulations, Electrochemical Engineering, Fuel Cells, Nanomaterials, Interfacial Flows, and Catalytic Reaction Engineering.

All candidates are required to have undergraduate and doctoral degrees in chemical engineering. Candidates are expected to develop an active research program, excel in teaching at both the undergraduate and graduate levels, and demonstrate an ability to work collaboratively with diverse communities. We are particularly interested in interviewing applicants with research interests in an area related to bioengineering. Interested applicants should apply through the website <https://jobs.usnh.edu>. Applicants should be prepared to upload the following documents when applying online: curriculum vitae, description of research interests and teaching experience and interests along with the names and addresses of three professional references. Initial review of applications will begin December 15, 2015 and the search will continue until the position is filled.

The University of New Hampshire is a major research institution, providing comprehensive, high quality undergraduate and graduate programs of distinction. The University is located in Durham, NH on a 188-acre campus, 60 miles north of Boston, 8 miles from the Atlantic coast, and is convenient to New Hampshire's lakes and mountains. There is a student enrollment of 13,000 students with a full time faculty of over 600 offering 90 undergraduate and more than 70 graduate programs. The University actively promotes a dynamic learning environment in which qualified individuals of differing perspectives, life experiences, and cultural backgrounds pursue academic goals with mutual respect and shared inquiry.

The University of New Hampshire is an Equal Opportunity / Equal Access /Affirmative Action institution. The University seeks excellence through diversity among its administrators, faculty, staff, and students. The University prohibits discrimination on the basis of race, color, religion, sex, age, national origin, sexual orientation, gender identity or expression, disability, veteran status, or marital status. Application by members of all underrepresented groups is encouraged.
