

UNIVERSITY of MICHIGAN ■ COLLEGE of ENGINEERING

## University of Michigan Department of Chemical Engineering

The Department of Chemical Engineering seeks highly qualified applicants for tenure-track or tenured positions at all levels. Applicants should have a PhD in chemical engineering or a related field, a track record of outstanding research, and a commitment to excellence in education and student mentoring. All research areas will be considered.

Chemical Engineering at Michigan is home to research efforts that include the areas of Energy and Environment; Life Sciences and Biotechnology; and Complex Fluids and Nanostructured Materials. Ann Arbor is among the most attractive cities in the country, offering many cultural, artistic, musical, recreational and educational activities. The University of Michigan is a premier public university with top-rated Engineering, Medical, Law and Business programs, and is responsive to the needs of dual career families. The College of Engineering is dedicated to the goal of building a culturally diverse and pluralistic faculty committed to teaching and working in a multicultural environment.

Candidates should complete the on-line application at  
[www.engin.umich.edu/che/about/faculty-search/](http://www.engin.umich.edu/che/about/faculty-search/).

**DEADLINE for submission: Tuesday, December 13, 2016**

The University of Michigan is an equal opportunity/affirmative action employer.
