

THE PENNSYLVANIA STATE UNIVERSITY: The Department of Chemical Engineering at Penn State (<http://www.che.psu.edu>) invites applications for a tenured or tenure-track faculty position at the Assistant or Associate Professor level. The area of expertise is open, but ideally would fit within one or more of the department's thrusts in materials, energy, or life science. The successful applicant is expected to develop and maintain a vibrant sponsored research program leading to national and international recognition and to teach at the undergraduate and graduate levels. Candidates must have a Ph.D. in Chemical Engineering or a related field and a strong record of scholarly achievement.

Nominations and applications will be considered until the position is filled. Screening of applicants will be done as applications are received. Applicants should submit a statement of teaching and research interests, curriculum vitae, and the names and addresses of four references, in one pdf file electronically at <https://psu.jobs/job/73713>.

CAMPUS SECURITY CRIME STATISTICS: For more information about safety at Penn State, and to review the Annual Security Report which contains information about crime statistics and other safety and security matters, please go to <http://www.police.psu.edu/clery/> , which will also provide you with detail on how to request a hard copy of the Annual Security Report.

Penn State is an equal opportunity, affirmative action employer, and is committed to providing employment opportunities to minorities, women, veterans, disabled individuals, and other protected groups.
