

ChE

CHEMICAL ENGINEERING

Assistant or Associate Professor

The Department of Chemical Engineering at Michigan Technological University invites applications for a tenure-track faculty position. The position is expected to be filled at the assistant professor level, but senior-level individuals with exceptional records will also be considered.

All areas of chemical engineering are of interest, including but not limited to advanced materials, biotechnology, energy and sustainability, modeling (molecular simulation, systems, etc.), separations, process simulation and design, and process automation & control. We are seeking candidates who have demonstrated excellence in research and have a strong commitment to teaching and working with students.

Review of the applications will begin immediately. If you plan to be at the AIChE Annual meeting in Orlando this fall, please provide information on session(s) where you will be making poster and/or oral presentation(s).

About the Department

We have 16 full-time faculty members, 480 undergraduate students and 35 graduate students. Externally-funded research has doubled in the past two years, and the Department is on a trajectory to double its graduate enrollment over the next five years. In March 2018, the undergraduate program was ranked 9th in the nation by College Factual, making it the highest-ranked program in the State of Michigan. The Department has one of the best Unit Operations Laboratory in the nation, with two pilot-plant set-ups and state-of-the-art process simulation and control facility. Michigan Tech's graduates are eagerly sought by industry because of their hands-on training and rigorous coursework.

About the University

Michigan Tech, one of four major research universities in the State of Michigan, is located in Michigan's Upper Peninsula, adjacent to Lake Superior. The community offers a small-town environment with outstanding four-season recreational opportunities.

Michigan Tech is building a culturally diverse faculty committed to teaching and working in a multicultural environment and strongly encourages applications from all individuals. Michigan Tech is an ADVANCE Institution, and has twice received National Science Foundation funds in support of efforts to increase diversity, inclusion, and the participation and advancement of women and underrepresented individuals in STEM.

Michigan Tech actively supports dual-career partners to retain a quality workforce. Candidates are invited to bring a guest to an on-campus interview and we offer career exploration advice and assistance finding positions at the University and in the local community.

Michigan Technological University is an Equal Opportunity Educational Institution/Equal Opportunity Employer, which includes providing equal opportunity for protected veterans and individuals with disabilities.
